Core Competencies

1. **AI Literacy Training:** Demystify Generative AI to empower and transition users from apprehension to fluency.

2. **Universal AI Platform Enablement:** Provide expert training and support for Microsoft 365, Google, and OpenAI ecosystems.

3. **Community of Practice Leadership:** Establish internal communities where collaborative problem-solving and sharing transform learners into organizational AI champions.

4. **Strategic AI Upskilling:** Enhance internal capacity to drive operational efficiency while maintaining data integrity.

Differentiators

- **Veteran-Led Leadership:** Founded by retired Federal professional and former U.S. Air Force Captain with 25 years of experience spanning national defense and IT modernization.

- **Sustainable "Champion" Strategy:** Moving beyond "one-and-done", we build internal communities for self-sustaining adoption.

- **Universal AI Mastery & Framework-Aligned Curriculum:** Utilize U.S. DOL's AI Literacy Framework, ensuring adaptability to most AI platforms and meets national standards for workforce readiness.

Experience

- **Episcopal School of Knoxville (2025-2026):** Led AI literacy workshops

- **Presidential AI Challenge (2026):** State & Regional Judge

- **USDA (2022-2025):** On enterprise-wide implementation team leading MS Copilot AI adoption and rollout. Directed USDA Axon+ migration, integrated generative AI features and scaled the platform to serve 8,000 users with 250,000+ monthly visits. Established two internal champions communities; delivered high-impact training, internal communications, and supported 200+ users to drive digital transformation and adoption. Led creation of organization-wide "Smart Search" AI Agents.
